DISCLOSURE CONTROLS AND PROCEDURES

A. MATERIAL INFORMATION RELEASE

(i) Material Information Release Guidelines

Material information is generally considered to be any information relating to the business and affairs of the Corporation that results in, or would reasonably be expected to result in a significant change in the market price or value of the Corporation's securities or that would reasonably be expected to have a significant influence on a reasonable investor's investment decisions. The decision as to what constitutes material information is a question of business judgment.

In complying with the requirement to disclose all material information under applicable laws and stock exchange rules in a timely manner, the Corporation will adhere to the following basic disclosure principles:

- Subject to the terms of this policy, material information will be publicly disclosed immediately via news release and be widely distributed.
- Material information may be kept confidential temporarily if the immediate release of the information would be unduly detrimental to the interests of the Corporation. In such cases, the information will be kept confidential until the CEO determines it is appropriate to publicly disclose or that the Corporation has a legal obligation to do so. In certain circumstances, the CEO may cause a confidential material change report to be filed with the applicable securities regulators, and will periodically (at least every 10 days) review its decision to keep the information confidential.
- Disclosure must be factual and non-speculative and must include any information the omission of which would make the rest of the disclosure misleading.
- Unfavourable material information must be disclosed as promptly and completely as favourable information.
- If previously undisclosed material information has been inadvertently disclosed, such information must be broadly disclosed immediately via news release. In certain circumstances, applicable securities laws allow for selective disclosure where doing so is in the necessary course of business. Selective disclosure of material information under this exception should generally be reviewed and confirmed with the Corporation's legal counsel.
- Disclosure on the Corporation's web site alone does not constitute adequate disclosure of material information.
- Disclosure must be corrected immediately if the Corporation subsequently learns that earlier disclosure by the Corporation contained a material error at the time it was originally distributed.
- The Corporation does not comment on rumours. This also applies to rumours on the Internet. The Corporation's authorized spokespersons or designates will respond consistently to those rumours, saying, "**It is our policy not to comment on market rumours or speculation.**"

The Corporation shall, so long as its shares are listed on the NASDAQ OMX First North market ("First North"), inform its Certified Adviser about the Corporation and its business and shall also provide all information to enable the Certified Adviser to fulfill the Corporation's responsibilities as required by the rules and regulations of First North. The Company shall notify the Certified Adviser as soon as possible in respect of new share issues, name changes, splits and other similar corporate actions to enable the Certified Adviser to fulfill its responsibility to notify First North.

News releases of a material nature must be disseminated through an approved news wire service that provides simultaneous national and/or international distribution and filed electronically with the Canadian securities regulatory authorities. In Sweden, the Corporation will use a recognized distributor for publication of its news releases such as NG News.

Simultaneously with the disclosure to the market, news releases will be provide to the Certified Advisor and to First North and will be posted and made available on the Corporation's web site at www.africaoilcorp.com as soon as possible. (iii) Trading Restrictions and Blackout Periods

It is illegal for anyone to purchase or sell securities of any public Corporation with knowledge of material information affecting that Corporation that has not been publicly disclosed. Except in the necessary course of business, it is also illegal for anyone to inform any other person of material non-public information.

Employees with knowledge of confidential or material information about the Corporation or counter-parties in negotiations of material potential transactions are prohibited from trading shares in the Corporation or any counter-party until the information has been fully disclosed and a reasonable period of time has passed for the information to be widely disseminated.

Trading blackout periods may be prescribed from time to time as a result of special circumstances relating to the Corporation during which insiders and designated Employees of the Corporation would be precluded from trading in securities of the Corporation. All Employees with knowledge of special circumstances should be covered by the blackout and may include external advisors such as legal counsel, investment bankers and counter-parties in negotiations of material potential transactions.

The trading prohibitions in this section do not apply to the acquisition of securities through the exercise of stock options or shares issued under similar incentive plans, but do apply to the sale of the securities acquired through the exercise of the option or similar securities issued under an incentive plan. In the event that the expiry date of a stock option occurs during or within two business days following the end of a trading blackout period, as described above, the expiry date of such stock option will be extended for a period of ten (10) business days following the end of the trading blackout period.

Applicable laws will be complied with in determining and implementing blackout periods associated with any other benefit plans the Corporation may have.
