Telephone:	**1-800-564-6253**

Changing Your Vote/Revocation of Proxies

A registered shareholder who has returned a proxy may revoke it at any time before it has been exercised. In addition to revocation in any other manner permitted by law, a proxy may be revoked by instrument in writing, including a proxy bearing a later date, executed by the registered shareholder or by his attorney authorized in writing or, if the registered shareholder is a Company, under its corporate seal or by an officer or attorney thereof duly authorized. The instrument revoking the proxy must be deposited at the registered office of the Company, at 666 Burrard St #2500, Vancouver, BC V6C 2X8 at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof, or with the Corporate Secretary of the Company or the chair of the Meeting prior to the time of voting at the Meeting. Only registered shareholders have the right to revoke a proxy. **Beneficial Shareholders who wish to change their vote must arrange for their respective intermediaries to revoke the proxy on their behalf.**

Voting as a Non-Registered Shareholder

Shareholders who hold their securities through their brokers, intermediaries, trustees or other persons, or who otherwise do not hold their securities in their own name (referred to in this Circular as **"Beneficial Shareholders**") should note that only proxies deposited by shareholders who appear on the records maintained by the Company's registrar and transfer agent as registered holders of voting securities will be recognized and acted upon at the Meeting. If voting securities are listed in an account statement provided to a Beneficial Shareholder by a broker, those voting securities will, in all likelihood, not be registered in the shareholder's name. Such voting securities more likely will be registered under the name of the shareholder's broker or an agent of that broker. **Each Beneficial Shareholder should ensure that voting instructions are communicated to the appropriate person well in advance of the Meeting.**

Existing regulatory policy requires brokers and other intermediaries to seek voting instructions from Beneficial Shareholders in advance of shareholders' meetings. The various brokers and other intermediaries have their own mailing procedures and provide their own return instructions to clients, which should be carefully followed by Beneficial Shareholders in order to ensure that their voting securities are voted at the Meeting. The form of proxy supplied to a Beneficial Shareholder by its broker (or the agent of the broker) is substantially similar to the instrument of proxy provided directly to registered shareholders by the Company and is commonly referred to as a **"voting instruction form**". However, its purpose is limited to instructing the registered shareholder (i.e., the broker or agent of the broker) how to vote on behalf of the Beneficial Shareholder. The vast majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Investor Communications Solutions, Canada (formerly, ADP Investor Communications, Canada) ("Broadridge"). Broadridge typically prepares a machine-readable voting instruction form, mails such forms to Beneficial Shareholders and asks Beneficial Shareholders to return the forms to Broadridge or otherwise communicate voting instructions to Broadridge (by way of the Internet or telephone, for example). Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of shares to be represented at the Meeting. **A Beneficial Shareholder who receives a Broadridge voting instruction form cannot use that form to vote their securities directly at the Meeting. The voting instruction forms must be returned to Broadridge (or instructions respecting the voting of securities must otherwise be communicated to Broadridge) well in advance of the Meeting in order to have the securities voted. If you have any questions respecting the voting of securities held through a broker or other intermediary, please contact that broker or other intermediary promptly for assistance.** Although a Beneficial Shareholder may not be recognized directly at the Meeting for the purposes of voting securities registered in the name of his broker, a Beneficial Shareholder may attend the Meeting as proxyholder for the registered shareholder and vote the securities in that capacity. **Beneficial Shareholders who wish to attend the Meeting and indirectly vote their securities as proxyholder for the registered shareholder should enter their own names in the blank space on the form of proxy provided to them and return the same to their broker (or the broker's agent) in accordance with the instructions provided by such broker.**

Voting Procedures if Your Shares Trade on the Nasdaq Stockholm Exchange

The information set forth in this section is of significance to shareholders who hold their securities ("Euroclear Registered Securities") through Euroclear Sweden AB, which securities trade on Nasdaq Stockholm. Shareholders who hold Euroclear Registered Securities are not registered holders of voting securities for the purposes of voting at the Meeting. Instead, Euroclear Registered Securities are registered under CDS & Co., the registration name of the Canadian Depositary for Securities. Holders of Euroclear Registered Securities will receive a VIF by mail directly from Computershare AB ("Computershare Sweden"). Additional copies of the VIF, together with the Company's Circular, can also be obtained from Computershare Sweden and are available on the Company's website (www.africaoilcorp.com). The VIF cannot be used to vote securities directly at the Meeting. Instead, the VIF must be completed and returned to Computershare Sweden, strictly in accordance with the instructions and deadlines that will be described in the instructions provided with the VIF.

If you have any questions concerning how to complete the VIF or respecting the voting of Euroclear Registered Securities, please contact Computershare Sweden at:

BUSINESS OF THE ANNUAL GENERAL MEETING

1. Receive Financial Statements and Auditor's Report

The Company's consolidated financial statements for the year ended December 31, 2019 ("Financial Statements"), the accompanying management discussion and analysis for the year ended December 31, 2019 ("MD&A"), and the report of the auditors will be placed before the Meeting. Copies of the Financial Statements, the MD&A, and the auditors' report have been mailed to all registered shareholders and non-registered shareholders (or beneficial shareholders) who have opted to receive such materials. These documents can also be found on the Company's website at www.africaoilcorp.com and are also available on SEDAR at www.sedar.com.

> ***BE IT RESOLVED*** *that the consolidated audited financial statements of the Company for the year ended December 31, 2019 together with the report of the auditors thereon as presented, be received.*

2. Appoint Auditors and Authorize Directors to Fix Remuneration

PricewaterhouseCoopers LLP Chartered Accountants ("PwC") has been the Company's auditors since October 8, 2008. The Company's Board of Directors (the "Board") recommends the re-appointment of PwC as auditors of the Company to hold office until the termination of the next annual meeting of shareholders. It is also proposed that the remuneration to be paid to PwC be as determined by the Board.

> ***BE IT RESOLVED*** *that PwC be appointed auditors of the Company to hold office until the close of the next annual meeting of shareholders, or until their successors are appointed, at a remuneration to be fixed by the directors.*

Unless otherwise instructed, the named proxyholders will vote FOR the appointment of PwC, as auditors of the Company until the next annual general meeting of shareholders, and to authorize the directors to fix the remuneration of the auditors.

3. Advisory Vote on Executive Compensation (Say on Pay)

The Company voluntarily holds an advisory vote on executive compensation on an annual basis in order to enhance its dialogue with shareholders with respect to its compensation programs. The Company is not proposing any modifications to its existing executive or director compensation programs. We hope our shareholders will carefully review the details of our compensation program to understand how these programs are aligned with our pay-for-performance philosophy and continue to support the Company by once again voting in favour of the Say On Pay resolution.

At last year's annual general meeting of shareholders, the Company's shareholders offered their support by voting 84.67% in favour of the advisory resolution to accept the Company's approach to executive compensation.

Accordingly, at the Meeting shareholders will be asked to consider and vote on the following advisory resolution:

> ***BE IT RESOLVED** on an advisory basis only and not to diminish the role and responsibilities of the Company's Board of Directors, that the shareholders of the Company accept the approach to executive compensation disclosed in this Circular.*

As this is an advisory vote, the results will not be binding upon the Board. However, the Board will carefully review the outcome of the vote as part of its ongoing review of executive compensation.

The Board unanimously recommends that the shareholders vote FOR the advisory vote on executive compensation and unless instructed otherwise, the persons named in the enclosed form of proxy will vote FOR the advisory vote on executive compensation.

4. Elect Seven (7) Directors

The Board is currently comprised of seven directors. At the Meeting, you will be given the opportunity to vote for the re-election of the following seven (7) nominees recommended by the Company ("Proposed Directors") to hold office until the termination of the next annual meeting of shareholders:

1. Andrew D. Bartlett
2. John H. Craig
3. Ian Gibbs
4. Gary Guidry
5. Keith C. Hill
6. Erin Johnston
7. Kimberley Wood

> ***BE IT RESOLVED** that the seven (7) persons nominated as Proposed Directors be elected as directors of the Company to hold office for the ensuing year or until their successors are elected or appointed.*

Management believes that the Proposed Directors can serve as directors of the Company. **Unless otherwise instructed, the named proxyholders will vote FOR the election of the Proposed Directors.**

Majority Voting

The Board has adopted a policy on majority voting that provides that the Chair of the Board will ensure that the number of shares voted in favour or withheld from voting for each director nominee is recorded and promptly made public after the meeting. If any nominee for director receives, from the shares voted at the meeting in person or by proxy, a greater number of shares withheld than shares voted in favour of their election, the director must immediately tender their resignation to the Chair of the Board following the meeting, to take effect upon acceptance by the Board. The Corporate Governance and Nominating Committee shall expeditiously consider the director's offer to resign and make a recommendation to the Board whether to accept the offer. Within 90 days of the shareholders' meeting, the Board will make a final decision concerning the acceptance of the director's resignation and announce that decision by way of a news release. Any director who tenders their resignation will not participate in the deliberations of the Board or any of its committees pertaining to the resignation. The policy applies only to uncontested elections, where the number of nominees as directors is equal to the number of directors to be elected. If the director fails to tender their resignation as contemplated in the policy, the Board shall not re-nominate the director. Subject to any corporate law restrictions, where the Board accepts the offer of resignation of a director and that director resigns, the Board may exercise its discretion with respect to the resulting vacancy and may, without limitation, leave the resultant vacancy unfilled until the next annual meeting of shareholders, fill the vacancy through the appointment of a new director whom the Board considers to merit the confidence of the shareholders, or call a special meeting of shareholders to elect a new nominee to fill the vacant position.

Advance Notice

The Company's Articles include an advance notice requirement for the nomination of directors. Advance notice facilitates an orderly meeting and it allows shareholders to receive prior information about the matters to be voted upon at the meeting. If you are interested in nominating someone to the Board, you must have given timely notice in proper written form, within the time periods prescribed by the Company's Articles, to the Corporate Secretary of the Company. The Company did not receive any such nomination in connection with this Meeting.

In 2017, the Board adopted a Board and Executive Officer Gender Diversity Policy (the "Diversity Policy"). This policy formalizes Africa Oil's commitment to promote diversity, in particular gender diversity, on the Company's Board and in Executive Officer positions.

Measures taken to ensure the Diversity Policy is effectively implemented include the commitment imposed on the Corporate Governance and Nominating Committee to actively seek out highly qualified women to include in the pool from which new board nominees are evaluated and chosen. This commitment is documented in the "*Guidelines for the Composition of Africa Oil's Board*" as found in the Mandate of the Corporate Governance and Nominating Committee and approved by the Board.

With regard to a gender diversity objective for executive officer positions and senior management positions, the Corporate Governance and Nominating Committee did not recommend a specific target be set given the infrequent turnover of executive and senior management level positions. The Board agrees that such appointments should be reviewed with the level of representation of women in executive officer positions in mind and, consistent with the Diversity Policy, that management of the Company, as part of the hiring process of such positions: (i) actively seek out women having the necessary skills, knowledge and experience to evaluate as potential candidates; and (ii) appointments be made based on a balance of criteria, including the merit, and experience of the candidate plus the needs of the Company at the relevant time.

Pursuant to the Diversity Policy, the Corporate Governance and Nominating Committee is mandated to discuss targets for promoting diversity and make recommendations to the Board. While the Board and Corporate Governance and Nominating Committee have not adopted any formal quotas or targets specifically addressing the level of representation of women on its board or in executive officer positions, it is committed to advancing women, and other individuals representing a diversity of backgrounds, into leadership roles through its talent management, learning development, and succession planning processes.

The Board currently has two women members, representing 28.6% of the Board's composition.

Independence

The Corporate Governance and Nominating Committee and the Board reviews each directors' independence upon their nomination and appointment, and also on an annual basis, using the standards of the Canadian Securities Administrators in National Instrument 52-110 *Audit Committees* ("NI 52-110") and the National Policy 58-201 *Corporate Governance Guideline*. This is in an attempt to have the Company's Board be accountable and perform effectively and transparently.

The majority of Africa Oil's current directors and its director nominees are independent for the purposes of Board membership. In addition, the Board is led by Mr. John Craig, who is an independent director. Mr. Ian Gibbs, and Mr. Keith Hill are the only directors that are not considered independent. As a former CFO within the last three years, Mr. Gibbs cannot be regarded as independent under the corporate governance guidelines. Mr. Hill is not considered independent by virtue of his role as President & Chief Executive Officer of the Company.

The Board has functioned and is of the view that it can continue to function, independently of management, as required. At each meeting of the Board, Audit or Compensation Committee, a determination is made as to whether an in-camera session, without management present, is required.

Interlocks

An "interlock" refers to two or more of the Company's directors who sit together on the board of directors of another reporting issuer. Mr. Gibbs and Mr. Hill are each directors of Africa Energy Corp., and this represents the Company's only interlock. The Board has determined that, in its judgment, the interlock does not adversely impact the independence of these directors or the ability of these directors to act in the best interests of the Company.

Orientation and Continuing Education

Orientation

Once a new Board member is welcomed to the Company, they are provided with the orientation and education program as developed by the Corporate Governance and Nominating Committee. The measures that the Board takes in connection with orienting new board members regarding the role of the Board, its directors, the committees of the Board and the nature and operation of the Company's business include providing each new member with information concerning the role and responsibilities of a public company director and discussing with new members the Company's operations. New directors are also provided the opportunity to meet with management of the Company. As each director has a different set of skills and professional background, the Board seeks to tailor the orientation of new members according to the needs and experience of each new director.

Continuing Education

The Company encourages continued education for its directors. The Board ensures that all directors are kept apprised of changes in the Company's operations and business and changes in the regulatory environment and governance trends. The Company arranges for legal counsel and industry experts to provide status updates and education. Board members may also attend external education seminars, at the Company's expense, that they determine necessary to keep themselves up-to-date with current issues relevant to their services as directors of the Company.

Mandate of the Board

The Board has a formal mandate (See *Appendix A*) that lists specific responsibilities, including:

- Approve the strategic direction of the Company;
- Identify principal risks of the Company's business and ensure implementation of appropriate risk management systems;
- Ensure the Company has management of the highest caliber; and
- Oversee the Company's methods of communication with its shareholders and the public generally.

In addition, the Board holds face-to-face, in person, strategy sessions at least once per year. The Board discharges its responsibilities either directly or through its committees. Each committee has a written charter which governs the conduct of such committee.

Board Committees

Audit Committee

The Company's Audit Committee is comprised of three directors, namely Mr. Andrew Bartlett (Chair), Mr. Gary Guidry and Mr. John Craig. Each member of the Audit Committee is independent of the Board and financially literate, as those terms are defined in NI 52-110 and has the requisite education and experience for the performance of their duties as a member of the Company's Audit Committee.

The Audit Committee oversees the accounting and financial reporting processes of the Company and its subsidiaries and all audits and external reviews of the financial statements of the Company on behalf of the Board, and has general responsibility for oversight of internal controls, accounting and auditing activities of the Company and its subsidiaries. All auditing services and non-audit services to be provided to the Company by the Company's auditors are pre-approved by the Audit Committee.

The Committee is responsible for examining all financial information, including annual and quarterly financial statements, prepared for securities commissions and similar regulatory bodies prior to filing or delivery of the same. The Audit Committee also oversees the annual audit process, quarterly review engagements, the Company's internal accounting controls, the Code of Business Conduct and Ethics, any complaints and concerns regarding accounting, internal controls or auditing matters and the resolution of issues identified by the Company's external auditors. The Audit Committee recommends to the Board the firm of independent auditors to be nominated for appointment by the shareholders and the compensation of the auditors. The Audit Committee meets a minimum of four times per year. As required by NI 52-110, information about the Company's Audit Committee is provided in the Company's most recent Annual Information Form ("AIF") under "Audit Committee". The AIF may be obtained from the Company's disclosure documents available on the SEDAR website at www.sedar.com.

Compensation Committee

The Compensation Committee consists of three directors, namely, Mr. Gary Guidry (Chair), Ms. Kimberley Wood and Mr. Andrew Bartlett, all of whom are independent as that term is defined in NI 52-110. All members of the Compensation Committee have direct experience which is relevant to their responsibilities as Compensation Committee members. All members have a good financial understanding which allows them to assess the costs versus benefits of compensation plans. The members' combined experience in the resource sector provides them with an understanding of the Company's success factors and risks, which is very important when determining metrics for measuring success.

The Compensation Committee's mandate includes reviewing and making recommendations to the Board in respect of compensation matters relating to the Company's executives which are identified in the "Summary Compensation Table" below. The Compensation Committee is responsible for:

- delivering an annual statement on executive compensation.

The Compensation Committee has also been mandated to review the adequacy and form of annual compensation for non-executive directors to ensure that such compensation realistically reflects the responsibilities and risks involved in being an effective director. The Compensation Committee meets at least once annually.

Corporate Governance and Nominating Committee

The Board's Corporate Governance and Nominating Committee is comprised of Mr. John Craig (Chair), Ms. Erin Johnston, Ms. Kimberley Wood, and Mr. Andrew Bartlett, each of whom is independent as that term is defined in NI 52-110.

The Corporate Governance and Nominating Committee is responsible for developing and monitoring the Company's approach to corporate governance issues. The Committee oversees the effective functioning of the Board, oversees the relationship between the Board and management, and has the responsibility to take initiatives to ensure that the Board can function independently of management including, without limitation, recommending to the Board mechanisms, including the appointment of a committee of directors independent of management, to allow directors who are independent of management an opportunity to discuss the Company's affairs in the absence of management

The roles and responsibilities of the Corporate Governance and Nominating Committee include the following:

- identify, review the qualifications of, and recommend to the Board possible nominees for the Board;
- assess directors on an ongoing basis and oversee the effective functioning of the Board, including the orientation and education of new recruits to the Board;
- assess the Board's committee structure on an ongoing basis and recommend changes where appropriate;

- review the appropriateness of the terms of the mandate and responsibilities of the Board and the charters, mandates and responsibilities of each of the committees; and
- undertake such other initiatives as are needed to assist the Board in providing efficient and effective corporate governance for the benefit of shareholders.

The Corporate Governance and Nominating Committee of the Board may engage an outside consultant to assist in identifying qualified candidates for the Board. The nominees for directors are initially considered and recommended by the Corporate Governance and Nominating Committee of the Board, approved by the entire Board and appointed by the Company or elected by shareholders, as required.

The Corporate Governance and Nominating Committee meet at least once annually.

Environmental Social Governance, and Health and Safety Committee

In 2019, the Board formed the Environmental Social Governance, and Health and Safety Committee ("ESGHSC"). The ESGHSC is comprised of Ms. Erin Johnston (Chair), Ms. Kimberley Wood, and Mr. Andrew Bartlett, each of whom is independent as that term is defined in NI 52-110.

The ESGHSC is responsible for assisting the Board with reviewing the Company's performance with respect to Environmental Social Governance, and Health and Safety matters, including the Board's oversight of the Company's climate-related risks and opportunities. The roles and responsibilities of the ESGHSC include reviewing and providing recommendations to the Board on the following:

- performance of the Company related to environmental, social, governance, and health and safety
- environmental, social governance, and health and safety risks
- provide oversight for the company's strategy and approach to responding to climate-related risks and opportunities
- compliance with environmental, social, governance, and health and safety legal and regulatory requirements
- external environmental, social, governance, climate change and health and safety reporting disclosures, including reviewing the Company's approach to climate-related risks and opportunities; and
- the Company's strategy to address environmental, social, governance, and health and safety trends, future regulations and decisions that could impact the performance of the Company, including the Company's strategy and response to climate-related risks and opportunities.

A senior officer of the Company, appointed by the CEO shall act as an advisor to the ESGHS Committee in assessing and managing the Company's climate-related risks and opportunities. The ESGHSC of the Board may engage an independent environmental consultant to assist in carrying out its duties.

The ESGHSC shall meet on a quarterly basis.

The Company has a standing Reserves Committee that is comprised of a majority of independent directors. The current Reserves Committee members are Mr. Gary Guidry (Chair), Mr. Keith Hill, and Mr. Andrew Bartlett. The Reserves Committee meets at least once annually.

Project Finance Committee

In 2016, the Board formed a special committee, the "Project Finance Committee" that is comprised of independent directors; namely, Mr. Andrew Bartlett (Chair) and Ms. Kimberley Wood. Mr. Ian Gibbs is also a member of this committee. The Project Finance Committee is responsible for overseeing the process of project financing for the Company's pipeline project in Kenya (the "Project Financing"), and for receiving, reviewing, assessing and making recommendations to the Board regarding the proposals received for the Project Financing. The Project Finance Committee meets at least once annually.

Chair of the Board and Chief Executive Officer Roles

Chair of the Board

The Chair of the Board, Mr. John H. Craig, is responsible for the Board administration with the support and assistance of the CEO and other senior management at Africa Oil. These responsibilities include, but are not limited to, presiding as Chair of all meetings of the Board, setting the meeting agenda, and ensuring the Board is organized properly and meets its obligations and responsibilities. The Chair is also responsible for ensuring the Board has a strategic focus and represents the best interests of the Company, acting as the liaison between the Board and the CEO as well as other members of management when required, and ensuring the Board is operating effectively. The Chair represents Africa Oil, at the request of the CEO, to shareholders and external stakeholders and acts as the primary spokesperson for the Board. The Chair and the CEO work together to ensure that all matters of importance are brought to the Board's attention in a timely manner to allow for fulsome discussions of critical issues.

Chief Executive Officer

The Chief Executive Office, Mr. Keith C. Hill, is responsible for directly overseeing the day to day operations of Africa Oil. The CEO is the leader of an effective and cohesive management team and sets the tone for management by exemplifying values of performance in enhancing shareholder value and advancing the direction of Africa Oil, consistently forwarding the Company's vision and strategy and bearing the chief responsibility of ensuring that Africa Oil meets its short-term operational and long-term strategic goals. The CEO works with, and is accountable to, the Board.

Board Assessments

The Corporate Governance and Nominating Committee oversees a process to self-assess Board effectiveness. This assessment questions directors on various company matters and board performance including their level of satisfaction with the functioning of the Board as a whole, its interaction with management and the performance of the standing committees of the Board. Board members conduct peer reviews and a self-assessment regarding their effectiveness as a Board member as part of this assessment process. To ensure the assessment process is candid, the individual assessments are returned on a confidential basis to the Chair of the Corporate Governance and Nominating Committee with a copy to the Corporate Secretary. The results are compiled for the Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee reviews and discusses the results and makes recommendations to the Board regarding any action that may be deemed necessary or advisable to ensure the Board continues to function effectively and adequately perform its mandate. The Board aims for a 100% compliance rate for completion of the assessment by directors, which was achieved this year. Following the assessment process held in Q1 of 2019, the directors concluded that the Board and the Board Committees function effectively.

Code of Business Conduct and Ethics

The Board oversees compliance with the Company's Code of Business Conduct and Ethics (the "Code") through the Audit Committee, which monitors compliance with the Code. It is the responsibility of all directors, officers, and employees to report promptly any suspected violation of the Code to the Company's legal counsel. Directors, officers or employees who have concerns or questions about violations of laws, rules or regulations, or of the Code, are required to report them to the Company's external legal counsel. Following the receipt of any complaints submitted hereunder, the Company's legal counsel will investigate each matter so reported and report to the Board, which will take corrective disciplinary actions, if appropriate, up to and including termination of employment of those violating laws, rules, regulations or the Code. The Code is available on the Company's website at www.africaoilcorp.com.

Whistleblower Policy

The Company has also established an Internal Employee Alert Policy ("Whistleblower") to encourage employees, officers and directors to raise concerns regarding accounting, internal controls or auditing matters, on a confidential basis free from discrimination, retaliation or harassment. The Company does not tolerate any retaliation for reports or complaints regarding suspected violations of the Code that were made in good faith. There has been no departure from the Code during the Company's most recently completed financial year. All directors, officers and employees have an obligation to act in the best interest of the Company. Any situation that presents an actual or potential conflict between a director, officer or employee's personal interest and the interests of the Company are to be reported to the Company's legal counsel.

DIRECTORS' COMPENSATION

Annual Retainer

When considering pay levels, the Compensation Committee considers the all Canadian pay peer group, comprised of Canadian companies with international operations. Acknowledging the Board's additional responsibility and liability for overseeing Africa Oil's international operations and global shareholder base, the Committee believes the midpoint between median and 75th percentile to be an appropriate target pay position. The Committee determined that a flat fee structure continues to be appropriate given the size and makeup of the Company's Board. As such, no meeting fees are paid to directors. Each director is entitled to an annual retainer as provided in the chart below. John Craig, as Chair of the Board, is entitled to an additional annual retainer to reflect his added level of responsibility.

Component	Director Compensation	Board Chair Additional Retainer
Cash Retainer	CAD$60,000	CAD$20,000
Equity Retainer (RSUs)	CAD$120,000	CAD$30,000

Long-Term Incentive Plan

Until 2016, Non-Employee Directors ("NE Directors") received their equity retainer in the form of stock options. As part of the director compensation review, the Committee evaluated alternative equity-based compensation vehicles for NE Directors to improve alignment with the Company's shareholders. At the 2016 Annual General and Special Meeting, shareholders approved a Long-Term Incentive Plan ("LTIP") to replace the use of stock options.

Under the LTIP, RSUs track the value of our common shares. RSUs granted to NE Directors vest on the third anniversary of the date of grant, at which time they are settled in cash, shares, or a combination of cash and shares.

Committee Fees

NE Directors serving on a board committee in 2020 are entitled to an additional cash retainer of CAD$5,000 per membership, and committee chairs are additionally entitled to the following retainers:

Committee	Chair Retainer
Audit Committee	CAD$12,500
Compensation Committee	CAD$7,500
Corporate Governance & Nominating Committee	CAD$7,500
Environmental Social Governance, and Health and Safety Committee	CAD$7,500
Reserves Committee	CAD$7,500
Project Finance Committee	CAD$7,500

Fees for Directors

In the table below, we outline the total expected annual compensation for our NE Directors in 2020, based on the compensation program approved by the Board, and the Board committee compensation as at December 31, 2019.

Name	Cash Retainer (CAD$)	Committee Chair/ Member Fees (CAD$)	Total Cash Retainer (CAD$)	Equity Retainer (CAD$)	Total (CAD$)
John Craig	$80,000	$12,500	$92,500	$150,000	$242,500
Gary Guidry	$60,000	$20,000	$80,000	$120,000	$200,000
Andrew Bartlett	$60,000	$40,000	$100,000	$120,000	$220,000
Kimberley Wood	$60,000	$20,000	$80,000	$120,000	$200,000
Erin Johnson	$60,000	$12,500	$72,500	$120,000	$192,500
Ian Gibbs	$60,000	$5,000	$65,000	$120,000	$185,000

Cash and equity retainer

Prior to the review and redesign of director compensation practices in 2016, directors at Africa Oil received an annual cash retainer and grant of stock options in recognition of their service on the Board. Since January 2016, no further option awards will be granted to NE Directors of Africa Oil. We believe that, given the NE Director's role of corporate oversight at Africa Oil, granting RSUs in accordance with the LTIP is better suited to building long-term ownership at the NE Director level.

Fees Earned by Directors in 2019

The table below sets out what the Company paid to NE Directors in cash and equity in 2019. Keith Hill did not receive any compensation for serving as a director in 2019, since he was compensated as an officer of the Company.

Directors' Outstanding Option Based Awards and Share Based Awards

The table below sets forth, for each of our NE Directors, all option-based and share based awards outstanding as at December 31, 2019. Prior to 2016, options were awarded to the Company's NE Directors to promote alignment with shareholders' interests, in recognition of the Board members' stewardship and to ensure such NE Directors continued to add value based on their extensive experience and in-depth knowledge of the international oil and gas business.

Under the LTIP, RSUs granted to NE Directors vest on the third anniversary of the date of grant, with the number of shares to be issued being equal to the number of RSUs vested plus any dividends paid. Director Share Ownership Guidelines and Compliance

In 2016, the Board approved the introduction of share ownership guidelines for NE directors in order to better align NE Director interests with shareholders. These guidelines were revised in 2017 and NE Directors are now required to own shares having a value equal to two times their annual cash retainer within five years following the later of their date of initial election or appointment, or implementation of these guidelines. The value of the shares owned or purchased for the purpose of these calculations is based on the average closing price of the Company's shares on the Toronto Stock

Exchange for the 20 trading days preceding and including December 31 of the prior calendar year. The following table compares each NE Director's common share as at December 31, 2019, relative to their ownership guideline:

STATEMENT OF EXECUTIVE COMPENSATION

Letter to Shareholders

Fellow Shareholders:

We are pleased to provide you with the following Compensation Disclosure and Analysis which will assist you in understanding our compensation philosophy and practices. We believe in providing transparent disclosure to help our shareholders understand the compensation paid to our executives, and the rationale behind our decisions.

We recently achieved an important milestone in early 2020, as the Company successfully completed the acquisition of deep-water producing assets in Nigeria, which transformed the Company into a full-cycle E&P company with exposure to material reserves and production. Our shareholding in Prime provides us with a strong cash flow generating platform from world-class assets operated by major oil companies. Our investment in these Nigerian producing assets supports and complements our development project in Kenya and our exploration portfolio in Africa and Guyana.

In addition, we have seen significant advances in our Kenya development project and will continue to work closely with our partners to progress the South Lokichar project towards a final investment decision.

Effective mid-year 2019, the Company relocated the executive team to the UK, to be closer to the Company's operations. While the Company has always used a peer group consisting of Canadian and UK companies, the Committee will continue to consider the UK to be a competitive market for executive talent and will target total compensation accordingly. Although the executives have relocated, the compensation structure/levels for the executives has not meaningfully changed except for provision of a housing allowance to support transition. The CFO was recently hired in the UK, and as such does not receive any additional allowances.

2019 Compensation Decisions

Taking into consideration the accomplishments and challenges during the year as well as share price performance, the Committee made the following decisions regarding executive compensation:

- Short-term incentive payouts ranged from 66% to 114% of target payout, with the CEO payout equivalent to 114% of target
- To further increase the alignment between the Executives' realizable long-term compensation and successful execution of the Company's strategy, the Compensation Committee and the Board maintained the weighting of the LTIP mix of 80% PSUs and 20% RSUs
- Following an updated independent compensation benchmarking analysis produced in December 2019, no adjustments were made to executive base salaries or incentive targets, our Executive and Director compensation practices, including base pay, target STIP and target LTIP.
- Additionally, no adjustments were made to director compensation quantum or practices

In reaching these decisions, the Compensation Committee considered, the updated benchmarking analysis and the Executive's realized compensation earned during the three-year period since the Company's pay practices were modified effective January 1, 2017. As a percentage of Target Total Direct Compensation over this period, the CEO's realized compensation has ranged between 40% and 63%. The remainder of the Executive's realized compensation, over the same period, has ranged between 42% and 61% of Target Total Direct Compensation. Interim performance assessments of all outstanding PSUs are significantly below target, with the expected performance factor for the upcoming vesting of PSUs (January 1, 2017 to December 31, 2019 performance cycle) estimated to be below 50% of target.

The Company's compensation structure is designed to attract highly qualified and motivated individuals, reward performance, and to be competitive with the compensation arrangements of other resource companies of similar size and scope of operations. The Compensation Committee considers a variety of factors when determining both compensation programs and individual compensation levels. These factors include the long-term interests of the Company and its shareholders, overall financial and operating performance of the Company, individual performance and contribution towards meeting corporate objectives and responsibilities, and compensation practices of industry competitors.

The Board is committed to reviewing all governance provisions to ensure compliance with best practice, via annual independent benchmarking studies, and to ensuring continued alignment of executive compensation with the shareholder experience. The Board was pleased to receive 84.67% support on our advisory vote on executive compensation at the 2019 AGM, and look forward to your continued support in 2020. On behalf of the Board and the Compensation Committee, we thank you for taking the time to read our disclosure, comments and questions are welcome and can be submitted to: board@africaoilcorp.com .

Regards,

"John Craig"

Chair of the Board

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

In the following section, Africa Oil details the 2019 compensation programs for the Company's executives (the "Executives") which include the following named executive officers ("NEOs"):

1. Keith Hill, President & Chief Executive Officer
2. Pascal Nicodeme, Chief Financial Officer (Appointed on October 14, 2019)
3. Ian Gibbs, Former Chief Financial Officer (Appointed to the Board on September 3, 2019, resigned as CFO on October 14, 2019)
4. Timothy Thomas, Chief Operating Officer
5. Dr. Paul Martinez, Vice President Exploration
6. Mark Dingley, Vice President Operations

The Vice President Operations reports to the Chief Operating Officer and does not participate in the LTIP.

In recognition of our cross-border talent pool and significant international operations, the Board may grant NEO compensation in Canadian, United States, and United Kingdom currencies. Mr. Hill, Dr. Martinez, and Mr. Dingley were awarded cash compensation denominated in US dollars. Mr. Nicodeme's cash compensation was denominated in British pounds. Mr. Gibbs and Mr. Thomas' cash compensation was denominated in Canadian dollars.

Compensation Philosophy / Executive Compensation Principles

The Company's compensation structure is designed to attract highly qualified and motivated individuals, reward performance, and to be competitive with the compensation arrangements of other resource companies of similar size and scope of operations. The Committee considers a variety of factors when determining both compensation programs and individual compensation levels. These factors include the long-term interests of the Company and its shareholders, overall financial and operating performance of the Company, individual performance and contribution towards meeting corporate objectives, responsibilities, and compensation practices of industry competitors.

Changes to Executive and Director Compensation Program in 2016

In response to feedback from shareholders and our recognition of evolving market practices, the Compensation Committee approved several changes to Africa Oil's executive compensation programs for implementation in 2016 to enhance the alignment with the interests of shareholders and market best practices. This included a review of executive officer pay levels relative to a revised pay comparator group, an update of the metrics within the short term incentive program ("STIP") to better align with the Company's operational objectives and strategic priorities, and the introduction of a restricted share unit and performance share unit plan to fully replace the use of options for senior executives. Another area of focus for the Committee was to improve the level of transparency, detail and readability of our compensation disclosure.

Considerable enhancements were made to our governance and pay practices which resulted in Shareholder approval of the Company's Long-Term Incentive Plan and the Company's Advisory Vote On Executive Compensation (Say On Pay) being passed at the Company's April 19, 2016 annual meeting of shareholders. We continue to follow these actions and to enhance our governance and pay practices so that we remain leaders amongst our peers:

- Board composition separating the roles of Board Chair and CEO
- Following a structured approach to executive compensation while retaining Compensation Committee judgement over the outcomes
- Utilizing a performance share unit program to ensure the alignment between pay and performance for the Executives
- Ceasing to issue stock options to Executives
- Following a revised director compensation program, eliminating the use of stock options for directors
- Continued engagement with an independent consulting firm, Hugessen Consulting Inc. ("Hugessen"), to provide independent insight to the Compensation Committee
- Following compensation governance practices such as including stock ownership guidelines, clawback policy, and an advisory Say On Pay vote
- Continued plain language disclosure of corporate performance targets, results, and short-term incentive payouts

Pay Comparator Group

During 2019, the Compensation Committee, with support from our independent compensation consultant, Hugessen, updated the compensation benchmarking analysis (previous analysis completed in 2018) to provide current competitive market context to determine if modifications were required to compensation design practices. During the period since the peer group was last analyzed, several factors affected the peers such as mergers and acquisitions, reorganizations and restructuring. The updated comparator group was developed based on the following criteria:

- Oil & gas exploration and production companies
- Companies with international operations
- Market capitalization and total assets: between approximately 1/3x – 3x that of Africa Oil
- Geography: Canadian headquartered

2019 Canadian Comparator Group		
TransGlobe Energy Corporation [(1)]	Frontera Energy Corporation	International Petroleum Corp.
Canacol Energy Ltd.[(1)]	Valeura Energy Inc..	ShaMaran Petroleum Corp.
Gran Tierra Energy Ltd.[(1)]		

(1) Formed part of the 2015 Canadian Comparator Group

In addition to referencing the Canadian peer group, the Committee also considered pay levels and practices of UK-based international exploration and production companies. The Committee believes that the UK remains an important source of executive talent for Africa Oil; particularly considering the recent appointment of the Company's CFO location of our assets, our partners and that our ownership includes a significant proportion of European-based shareholders. While we do not directly target pay levels based on UK peers, we reference UK pay practices alongside other factors such as executive experience, skills and education.

2019 UK Reference Group		
Premier Oil plc	Phoenix Global Resources plc[(1)]	Amerisur Resources plc
Pharos Energy plc, formerly known as SOCO International plc[(1)]	Savannah Petroleum plc[(1)]	Eland Oil & Gas plc[(1)(2)]
Seplat Petroleum Development Company plc[(1)]		

(1) Formed part of the 2018 UK Reference Group
(2) Taken over by SEPLAT in 2020.

Pay Positioning

When setting pay levels for Africa Oil's executive team, the Compensation Committee targets pay positioning including base salary, short-term incentive plan and long-term incentive plans at the 75th percentile relative to Canadian exploration and production companies with international assets. While total compensation is targeted at P75, individual pay positioning varies dependent upon role, tenure, and individual performance. While the Company continues to be a Canadian company, the Committee believes this pay position is most appropriate given all the Africa Oil executives are now located in the UK (alongside a significant portion of African-focused energy companies), resulting in the UK being an important source of talent for the Company. The Committee seeks to have a pay program which is competitive with both the Canadian and UK markets, acknowledging that total pay levels among Africa Oil's UK reference group are significantly higher than pay levels of Canadian peers. With the exception of Mr. Nicodeme, who was recruited out of the London market, and notwithstanding UK pay levels, for 2019 the Committee continued to award Canadian-style compensation arrangements that include lower base salaries and greater variable pay and pay at risk relative to UK peers.

Based on the updated 2018 executive compensation benchmarking analysis, the Committee noted target compensation is within target and as such for 2019 elected:

- Not to increase base salaries;
- Hold STIP targets at current levels;
- Maintain the weighting of the LTIP mix to 80% PSUs and 20% RSUs for Executives.

Elements of Africa Oil's Executive Compensation Program

Africa Oil's executive compensation program consists of three major components: (i) base salary, (ii) short-term incentive plan ("STIP"), and (iii) long term incentive plan ("LTIP"). The value of perquisites received by each of the Executives were not in aggregate equal to or greater than $50,000 or 10% of the Executives' total salary for the financial year. Africa Oil does not provide its Executives with a savings plan. The Company complies with the employer pension duties in the UK in respect of Mr. Nicodeme's employment.

Executive Pay Mix

The Executives receive compensation that is both fixed (guaranteed) and variable (at-risk). The majority of our Executives' target compensation is variable, at-risk pay that is dependent upon performance relative to operational, financial, and strategic objectives approved by the Committee, as well as stock price. Over 50% of total direct compensation is delivered in the form of long-term incentives. The pay mix for our President & CEO and other Executives is as follows(1):

Component	At Risk	Objectives	Time Frame	Description
Components Total Direct Compensation (TDC)				
Base Salary	No	Provide market competitive level of fixed compensation	Reviewed annually	• Only fixed component of TDC • Intended to remunerate the Executive for discharging job responsibilities • Individual Executive salary reflects level of responsibility, skills and experience

Component	At Risk	Objectives	Time Frame	Description
Short-Term Incentive Program ("STIP")	Yes	Acknowledge progress on strategic priorities and rewards for achievement of annual performance goals	One year	• Cash-based performance incentive • Payout based on combination of Board-approved financial goals, operational metrics, strategic objectives, and individual performance
LTIP - Restricted Share Units	Yes	Incentivize the creation of shareholder value	Three years	• Annual grants • 100% of RSUs granted to non-executive directors cliff vest 3 years after the date of grant; RSUs granted to all other participants vest over 3 years (1/3 on the first, second, and third anniversary of the date of grant)
LTIP - Performance Share Units	Yes	Reward for performance and incentivizes the creation of shareholder value and alignment to the long-term strategy	Three years	• Annual grants • 100% cliff vest 3 years after the date of grant (0-200% of units granted) based on Board-approved operational and strategic performance measures

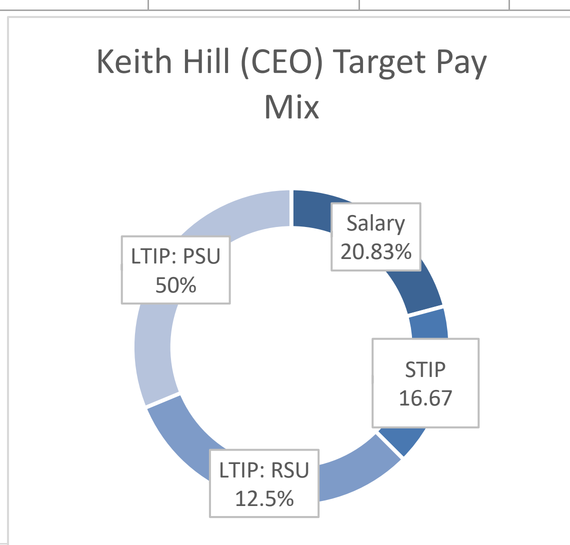
(1) The Company's Executives include the President & Chief Executive Officer, the Chief Financial Officer, the former Chief Financial Officer, the Chief Operating Officer, and the Vice President Exploration. Due to the resignation Mr. Alex Budden, Vice President External Relations, early in 2017, Mr. Mark Dingley, Vice President Operations, has become a Named Executive Officer ("NEO") for the purposes of the management information circulars commencing in 2017. The Vice President Operations reports to the Chief Operating Officer and does not participate in the LTIP. The Vice President Operations continues to participate in the Stock Option Plan as a form of long-term incentive.

CEO Compensation

The Committee understands the importance of CEO compensation in setting the standard for compensation structure for the entire organization. Nearly 80% of our CEO's total target direct compensation is "at risk".

The table below summarizes 2019 target pay levels for Keith Hill.

Year	Base $	STIP Target		LTI Target		TDC Target $
		% of Salary	$	% of Salary	$	
2019	$375,000	80%	$300,000	300%	$1,125,000	$1,800,000



Executive Compensation

Similar to CEO compensation, on average more than 70% of our Executive's total target compensation is "at-risk".

Below is a summary of the 2019 target pay levels among the members of Africa Oil's Executive and NEOs:

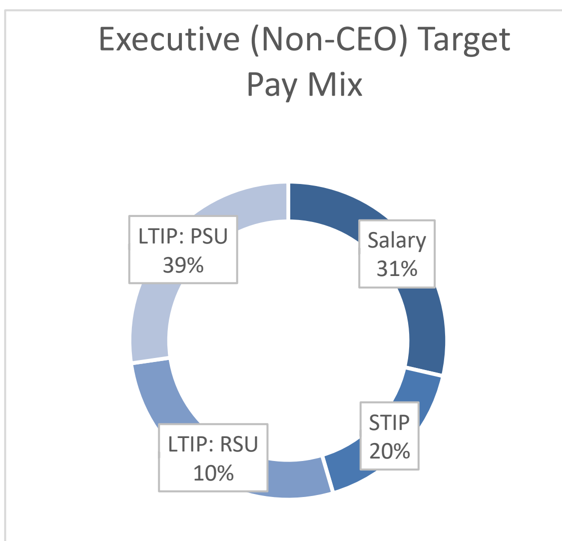
(1) Mr. Nicodeme commenced employment as the company's CFO on October 14, 2019. Mr. Nicodeme's cash compensation was denominated in British pounds and converted to USD as follows: annual salary of £375,000, STIP of £262,500 and LTI of £450,000. These amounts were converted to USD using an FX rate of 1.31.

(2) Mark Dingley (Vice President Operations) does not participate in the LTIP (RSUs and PSUs). Stock options are granted as his long-term incentive. Mr. Dingley is the only NEO residing in Kenya, on an expatriate assignment and reports to Tim Thomas (Chief Operating Officer).



NEO Base Salary

Base salaries are provided to NEOs to provide a fixed level of compensation. The base salary of each Executive is determined by the Committee based on an assessment of his responsibilities and consideration of competitive compensation levels for the markets in which the Company operates. In making its recommendations to the Board, the Committee also considers the particular skills and experience of the individual. Base salaries have remained unchanged since the beginning of 2016.

Executive	Position	2018 Base	2019 Base	% Change
Keith Hill	President & CEO	$375,000	$375,000	0%
Pascal Nicodeme(1)	Chief Financial Officer	N/A	$491,250	0%
Ian Gibbs(2)	Former Chief Financial Officer	CAD$375,000	CAD$375,000	0%
Tim Thomas	Chief Operating Officer	CAD$350,000	CAD$350,000	0%
Paul Martinez	Vice President Exploration	$282,000	$282,000	0%
Mark Dingley	Vice President Operations	$250,000	$250,000	0%

(1) Mr. Nicodeme joined the Company in 2019, and his base salary has not changed. Mr. Nicodeme commenced employment as the company's CFO on October 14, 2019. Mr. Nicodeme's cash compensation was denominated in British pounds and converted to USD as follows: annual salary of £375,000, STIP of £262,500 and LTI of £450,000. These amounts were converted to USD using an FX rate of 1.31.

(2) Mr. Gibbs joined the Board on September 3, 2020. He ceased to be CFO on October 14, 2019. Pursuant to a CFO Transition Agreement signed with the Board on 29 August 2019, Ian Gibbs' existing RSUs, including the 2019 RSUs, remain eligible to vest in March 2020 but all RSUs scheduled to vest post 2020 will be canceled. PSUs granted in 2017 and 2018, and 22% of 2019 PSUs will continue to vest according to the LTIP.

The Executive's base salary is intended to remunerate the Executive for discharging job responsibilities and reflects the executive's performance over time. Individual salary adjustments take into account performance contributions in connection with their specific duties. The base salary of each executive officer is determined by the Committee based on an assessment of his sustained performance and consideration of competitive compensation levels for the markets in which the Company operates. The base salaries of executive officers and members of the senior management team are reviewed annually.

Short Term Incentive Plan

As a part of our Board review of executive compensation practices, the Committee introduced a more structured bonus plan and corporate performance scorecard for Executive commencing in 2016. The Committee develops bonus targets based on peer group pay practices as well as each Executive's role, responsibility and experience level. Our Executives participate in Africa Oil's STIP, which is designed to reward short-term performance relative to key financial, strategic and operational goals with an annual cash bonus.

In early 2019, the Committee approved a new short-term corporate scorecard which was used to determine the final bonus payout for each Executive. As the key goals in the 2019 corporate scorecard required a collective effort from all Executives, there was no formal individual performance component for each Executive. Notwithstanding this, when approving final performance scores for each Executive, the Committee applied discretion to reflect the individual performance of each Executive during the year.

Actual performance bonus awards may range from 0%-200% of target levels depending on the corporate and each executive's individual performance evaluation. Accordingly, the entire STIP is considered "at risk". Performance evaluations for executives are submitted to the Board by the CEO for approval, with the exception of the CEO's performance, which is evaluated independently by the Committee. The Board reserves final judgment over all STIP payouts.

2019 Performance Highlights

- The acquisition of 50% of the shares of Petrobras Oil and Gas B.V., now Prime Oil and Gas B.V. ("Prime")was successfully completed on January 14, 2020 with the Company transforming into a full-cycle E&P company with exposure to material reserves and production. The shareholding in Prime provides the Company with a balanced and cash flow generating asset portfolio and supports and complements the Lokichar development project in Kenya and AOI's exploration portfolio in Africa and Guyana
- An active Prime oil price hedging program mitigates oil price risk with 95% of its 2020 production hedged at an average price of $66.0 per barrel and 28% of its 2021 production hedged at an average price of $60.0 per barrel
- The Kenya project has seen significant advances in all aspects and AOI will continue to work closely with its partners in Kenya to progress the South Lokichar project towards a final investment decision.
- The Company continued to build exposure in 2019 to three high impact exploration wells to be drilled in 2020 in South Africa (Block 11B/12B) and Namibia (Block 2913B) via its equity investments in Africa Energy Corp. and Impact Oil & Gas Limited These are significant wells that could substantially increase the value of AOI's investments in Africa Energy and Impact, in case of success.
- In Guyana, we continued to support Eco Atlantic's management team as they work to progress exploration activities on the Orinduik block, which we view as a highly prospective block in one of the most attractive exploration regions worldwide.

Taking the above 2019 performance into consideration, the Compensation Committee assessed performance against the STIP scorecard as follows:

In recognition of these accomplishments and challenges, the Executives were awarded short term incentive payouts ranging from 66% to 114% of the target payout. The Vice President Operations was awarded a short-term incentive payout of 120% of target, taking into consideration his contributions as the Company's sole expatriate employee, based in Nairobi, where his contribution to several stakeholder engagements and joint venture operations is critical to advancing the Company's interests.

Mr. Nicodeme's cash compensation was denominated in British pounds and converted to USD as follows: annual salary of £375,000, STIP of £262,500 and LTI of £450,000. Long Term Incentive Plan

Executives, including the President and Chief Executive Officer and executive reporting directly to him, are entitled to participate in Africa Oil's LTIP (See Appendix B), which is designed to promote their long-term motivation and retention. Historically (prior to 2016), Africa Oil's LTIP consisted solely of stock options, and we believe this structure was best suited for our Company during our earlier exploration stage. However, recognizing our growth and maturity in recent years, the Compensation Committee set out to evaluate alternative long-term incentive vehicles for our executives. As a result of the compensation review done in 2015, the Committee recommended, and the Board approved, a LTIP mix for our Executives participating in the LTIP of 50% restricted share units ("RSUs") and 50% performance share units ("PSUs").

To further increase the alignment between the Executives, who participate in the LTIP, long term compensation and successful execution of the Company's strategy, the Compensation Committee and the Board have increased the weighting of the LTIP mix to 75% PSUs and 25% RSUs for Executives in 2018, and to 80% PSUs and 20% RSUs in 2019, maintained in 2020. This change better aligns our Executive to our strategic goals and long-term shareholder return in the future. Africa Oil no longer grants stock options to Executives, including the President and Chief Executive Officer and executive reporting directly to him, but continues to do so for certain key employees, including Mr. Mark Dingley, Vice President Operations. Beginning in 2016, independent directors of the Board receive an annual restricted share unit grant, while the Company's Executives receive an annual grant of both restricted and performance share units.

Restricted Share Units and Performance Share Units

Africa Oil's long-term incentive plan was introduced in 2016 to provide Executives with long-term retention and motivation. RSUs are a notional share instrument which tracks that value of common shares. RSUs granted to Executives vest over three years (1/3 on the first, second and third anniversary of the grant date). Upon payout, RSUs may be settled in cash or treasury shares, at the Compensation Committee's and Board's discretion.

Similar to RSUs, PSUs are notional share instruments which track the value of common shares. However, PSUs are subject to additional performance conditions that serve to enhance the alignment of executives to key strategic, financial and operational milestones of the company. PSUs will cliff vest three years from the date of grant, at which point the Committee will assign a performance multiple ranging from 0% – 200%, based on actual results relative to the PSU performance scorecard (subject to Committee discretion). During the three-year term of the PSUs, the Compensation Committee will perform an interim evaluation of performance against the stated performance conditions applicable to granted PSUs. In addition, the Committee will perform a final assessment of performance over the entire three-year PSU term. To determine the final performance multiple, the Committee will provide a 20% weighting to each of the interim annual performance assessments and a 40% weighting to the overall three-year combined assessment. PSUs may be settled in cash or treasury shares, at the Compensation Committee's and Board's discretion.

The RSU and PSU plans form part of the Company's compensation risk mitigating strategy by providing a meaningful amount of total executive pay in variable compensation. These programs align the interests of the Company to those of shareholders by motivating executives to grow share price through execution of our business strategy. The Board has an oversight role for the Company's compensation risk mitigating strategy. The staggered vesting and payout schedule of annual RSU and PSU grants also creates a significant retention mechanism for our Executives.

PSU Performance Metrics

When originally determining performance metrics for the PSU plan, the Committee evaluated several alternatives, including relative total shareholder return ("TSR"). The Committee decided that relative TSR would not be an effective measure of Africa Oil's performance given the limited number of Canadian-based, international exploration and production companies that would be suitable as performance peers. The Committee instead developed a performance scorecard based on long-term strategic, financial and operational milestones suited to measure and reward long-term value creation and reflecting Africa Oil's current stage of development. The Committee retains the right to exercise discretion in assessing ultimate performance and share price performance will be taken into consideration.
The performance framework for each year's PSU grants is developed by the CEO and reviewed and approved by the Compensation Committee. The metrics chosen have been primarily focused on:

- Deploying the Company's capital, via investments and mergers and acquisitions, to diversify the portfolio and add additional components (production and exploration) to create an independent, full-cycle, Africa-focused oil and gas exploration and production company;
- Actions required to integrate and realise value from acquired assets, which apply to the recent acquisition of Prime;
- achieving key milestones required to continue progressing development of the South Lokichar Basin (Blocks 10BB and 13T in Kenya) through a final investment decision and towards first oil.

The following table provides a summary of how performance was assessed in comparison to target for the first tranche of PSUs, which were granted in 2016 and vested in 2019. In arriving at the 45.5% assessment, the Compensation Committee and Board of Directors exercised their discretion in reducing the assessment in comparison to the results that would have been achieved by averaging the interim and final assessments over the three-year term of the PSUs. Factoring in the Company's 2018 year-end share price, this assessment would result in the President and Chief Executive Officer realizing approximately 26% of his LTIP PSU target on the date of grant.

2016 Performance Scorecard:

Farmout Completion and Resource Confirmation	37.0%	44.5%	Completion of Maersk farmout and agreement with regards to payment of $75 million advance carry in installments during 2018

Interim PSU assessments were undertaken by the Compensation Committee related to the PSUs granted in 2017 and 2018 and are 43.8% and 51.8% respectively.

The following tables provides a summary of how performance has been assessed in comparison to target for the PSUs, which were granted in 2017 and scheduled to vest in 2020. The final assessment is 30.4%. Factoring in the Company's 2019 year-end share price, this assessment would result in the President and Chief Executive Officer realizing approximately 8% of his LTIP PSU award on the date of grant.

2019 LTIP Grants

Per the Company's updated pay philosophy, the Committee developed 2019 LTIP targets having considered peer group pay practices as well as each executive's role, responsibility and experience level. In 2019, Africa Oil granted our Executives RSUs and PSUs in line with their target LTIP. These RSU and PSU grants served to both motivate the executive toward increasing share value and to enable the executive to share in the future success of the Company.

Pursuant to a CFO Transition Agreement signed with the Board on 29 August 2019, Ian Gibbs' existing RSUs, including the 2019 RSUs, remain eligible to vest in March 2020 but all RSUs scheduled to vest post 2020 will be canceled. Mr. Nicodeme's cash compensation was denominated in British pounds and converted to USD as follows: annual salary of £375,000, STIP of £262,500 and LTI of £450,000. These amounts were converted to USD using an FX rate of 1.31.

Ian Gibbs (Former CFO) reported directly to Keith Hill (President and Chief Executive Officer) until 14 October 2019 and participated in the LTIP (RSUs and PSUs) in 2019. Mark Dingley, Vice President Operations reports to Tim Thomas (Chief Operating Officer), is the only NEO continuing to receive stock options.

Performance Graph

The Compensation Committee and Board are committed to ensuring Africa Oil's compensation program for its Executives is aligned with the growth and maturity of the Company, while also considering the experience of our shareholders. Africa Oil revamped the Executive compensation program in 2016, transitioning from stock options to full-value shares as a form of long-term incentive, and adjusting pay levels and pay mix to better reflect a company of our size and stage of development. By providing a significant portion of our Executive pay in the form of equity-based compensation, the take home pay of our Executives has been better aligned with Africa Oil's share price performance. As described above, equity-based compensation expense has decreased dramatically since revamping the Executive compensation program. Just as shareholder return has been below expectation in the years since implementing the executive compensation program (December 31, 2019 share price approximately 49% of December 31, 2014 share price), both LTIP and STIP awards to Executives have been below expectation.

Since the revamping of the Executive compensation program in 2016, the CEO's realized compensation has ranged between 40% and 63% of his Target Total Direct Compensation. The other Executives' realized compensation, over the same period, has ranged between 42% and 61% of Target Total Direct Compensation.

For full details of our revised compensation program, see the "Compensation Discussion and Analysis" section of this Circular.

(1) Salaries for the Executives and NEOs are paid in Canadian dollars or Pound Sterling and converted to United States dollars for reporting purposes, except for Mr. Hill, Dr.Martinez, and Mr. Dingley whose salary is denominated in USD.

(2) These amounts represent the value of stock options granted to the respective Executive or NEO. The fair value of each option granted is estimated on the date of grant using the Black-Scholes options pricing model taking into account the following assumptions on a weighted average basis: (i) risk-free interest rate (%); (ii) expected life (years); and (iii) expected volatility (%). This is consistent with the accounting values used in the Company's financial statements. The dollar amount in this column represents the total value ascribed to the stock options; however, all of these stock options are subject to vesting as to one-third on the date of grant, one-third one year from the date of grant and the remaining one-third two years from the date of grant.

(3) These amounts represent the fair value of RSUs and PSUs granted to the respective NEOs, on the grant date. PSUs are notional share instruments which track the value of the common shares and are subject to non-market performance conditions related to key strategic, financial and operational milestones. PSUs cliff vest three years from the date of grant, at which time the Board of Directors will assign a performance multiple ranging from nil to two hundred percent to determine the ultimate vested number of PSUs. PSUs may be settled in shares issued from treasury or cash, at the discretion of the Board of Directors. The Company accounts for PSUs as equity-based awards

whereby the estimated fair value of the grant is expensed evenly throughout the remaining vesting period. RSUs are notional share instruments which track the value of the common shares. RSUs granted to Executives vest over three years (1/3 on the first, second and third anniversary of grant). RSUs may be settled in shares issued from treasury or cash, at the discretion of the Board of Directors. The Company accounts for RSUs as cash settled awards whereby the estimated fair value of the grant is expensed evenly throughout the remaining vesting period.

(4) Annual short-term incentive plan payments earned and paid during the year.

(5) Amounts reflected under this column typically consist of benefits such as life insurance premiums, parking benefits, and the payment of living expenses related to long-term foreign assignment.

(6) Included in "All other compensation" for Keith Hill, Tim Thomas and Paul Martinez are housing benefits which commenced during 2019. The housing benefit for Keith Hill was $62,000, the housing benefit for Tim Thomas was $8,300 and the housing benefit for Paul Martinez was $61,000.

(7) Mr. Gibbs joined the Board on September 3, 2020. He ceased to be CFO on October 14, 2019. Pursuant to a CFO Transition Agreement signed with the Board on 29 August 2019, Ian Gibbs' existing RSUs, including the 2019 RSUs, remain eligible to vest in March 2020 but all RSUs scheduled to vest post 2020 will be canceled. PSUs granted in 2017 and 2018, and 22% of 2019 PSUs will continue to vest according to the LTIP.

(8) Mr. Nicodeme commenced employment as the company's CFO on October 14, 2019. Mr. Nicodeme's cash compensation was denominated in British pounds and converted to USD as follows: annual salary of £375,000, STIP of £262,500 and LTI of £450,000. These amounts were converted to USD using an FX rate of 1.31.

(9) The Company's Executives include the President & Chief Executive Officer, the Chief Financial Officer, the Chief Operating Officer, and the Vice President Exploration. Due to the resignation of Mr. Alex Budden, Vice President External Relations, and a former Executive and NEO of the Company, early in 2017, Mr. Mark Dingley, Vice President Operations, became an NEO for the purposes of management information circulars commencing in 2017. However, Mr. Dingley is not considered an Executive of the Company, and does not participate in the LTIP. Mr. Dingley is an expatriate employee on a work assignment based in Kenya. As part of Mr. Dingley's expatriate compensation package, the Company pays for certain Kenyan living expenses including housing, automobile, housing utilities. The housing benefit included under "All other compensation" was $74,000 in 2019 ($91,000 in 2018, and $78,000 in 2017).

Other than as set out above, no perquisites have been included as they do not reach the prescribed threshold of the lesser of CAD$50,000 or 10% or more of total salary for the financial year.

(1) Calculated using the closing price of the common shares on the Toronto Stock Exchange on December 31, 2019 of CAD$1.17 and subtracting the exercise price of in-the-money stock options. As at December 31, 2019, these stock options had not been, and may never be, exercised and actual gains, if any, on exercise will depend on the value of the common shares on the date of exercise.
(2) PSUs granted to Executives are notional share instruments which track the value of the common shares and are subject to non-market performance conditions related to key strategic, financial and operational milestones. PSUs cliff vest three years from the date of grant, at which time the Board of Directors will assign a performance multiple ranging from nil to two hundred percent to determine the ultimate vested number of PSUs. A one to one ratio was used for the purpose of this valuation.
(3) Calculated using the closing price of the common shares on the Toronto Stock Exchange on December 31, 2018 of CAD$1.08 multiplied by the number of outstanding RSUs. RSUs granted to Executives vest over three years (1/3 on the first, second and third anniversary of grant).

Incentive Plan Awards

The following table sets forth details of the value vested or earned for all incentive plan awards in 2019 by each Executive or NEO:

(1) Calculated using the closing price of the common shares on the Toronto Stock Exchange on the dates on which stock options vested during the financial year ended December 31, 2019 and subtracting the exercise price of in-the-money stock options.
(2) This represents the amount paid upon vesting of RSUs and PSUs. No amounts realized upon vesting have been deferred.
(3) Mr. Gibbs joined the Board on September 3, 2020. He ceased to be CFO on October 14, 2019. Pursuant to a CFO Transition Agreement signed with the Board on 29 August 2019, Ian Gibbs' existing RSUs, including the 2019 RSUs, remain eligible to vest in March 2020 but all RSUs scheduled to vest post 2020 will be canceled. PSUs granted in 2017 and 2018, and 22% of 2019 PSUs will continue to vest according to the LTIP.

Termination and Change of Control Benefits

All Executives have employment agreements with the Company, which provide protection to the employee in the event of termination without cause. The following chart sets out the quantum of notice of termination or payment in lieu for each agreement.

Name	**Notice**
Keith C. Hill	One year
Pascal Nicodeme	Six months
Tim Thomas	One Year
Paul Martinez	One Year

The Former Chief Financial Officer, Ian Gibbs, had an agreement in place with a one-year termination without cause provision.

The Executives are also entitled to a notice amount in the event of a "Change of Control" which results in their termination or resignation. Mr. Hill is entitled to resign within 180 days of such change of control. The outstanding incentive stock option awards, RSUs and PSUs in the Company for Mr. Hill, Mr. Thomas, and Mr. Martinez would fully vest and become immediately exercisable upon a change of control occurring.

The agreement with Mr. Hill provides that a change of control is deemed to occur if: (i) there is a direct or indirect sale or transfer of beneficial ownership of all or substantially all of the assets of the Company ; (ii) there is a consolidation, merger, amalgamation or similar transaction as a result of which shareholders of the Company prior to the transaction hold less than fifty percent (50%) of the outstanding shares after completion of the transaction; or (iii) there is a sale or transfer of beneficial ownership to an acquirer of: (A) securities of the Company possessing more than fifty (50%) of the combined voting power; or (B) the right to appoint a majority of the Company's Board, as a result of which a majority of the Board elected at the next shareholders' meeting are non-incumbent directors who are nominees of such acquirer.

The agreement with Mr. Nicodeme provides that a change of control means the sale of Africa Oil Corp. or a controlling interest in all or substantially all of its assets; or there is a change of control in the Company, being a successful take-over of the Company. Mr. Nicodeme will not qualify for the Change of Control Payments if he is offered a suitable role within 90 days of the change of control. If he rejects a suitable role offered to him within 90 days he will not qualify for the change of control notice amount.

The table below provides the compensation that would have been paid to each Executive if any of them had been terminated without cause or terminated without cause in the event of a change of control on December 31, 2019.

Name	Terminated without cause notice amount	Change of control notice amount	Value of outstanding incentive stock option awards, RSUs and PSUs	Additional Amounts	Total
Keith C. Hill	$375,000	$750,000	$1,058,102	$50,860	$2,233,962
Pascal Nicodeme	$245,625	$491,250	$136,471	Nil	$873,346
Tim Thomas	CAD$350,000	CAD$700,000	$493,447	Nil	CAD$1,690,924
Paul Martinez	$282,000	$564,000	$464,103	Nil	$1,310,103

Mr. Gibbs, the Former Chief Financial Officer, joined the Company's board of directors on September 3, 2019, and he resigned from his role as the Chief Financial Officer of the Company on October 14, 2019. See Executive Compensation - Summary Compensation Table (p.42) for his 2019 compensation.

In accordance with the Company's Stock Option Plan, Mr. Dingley's outstanding incentive stock option awards in the Company would fully vest and become immediately exercisable upon a change of control occurring (valued at $48,306 as at December 31, 2019). For Mr. Dingley, a “change of control” is deemed to occur if there is a successful take-over of the Company.

Compensation Oversight, Governance and Risk Management

The Company’s executive compensation program is administered by the Compensation Committee of the Board. Risk management is a primary consideration of the Compensation Committee when implementing its compensation program. It does not believe that its compensation program results in unnecessary or inappropriate risk-taking including risks that are likely to have a material adverse effect on the Company.

The Company’s directors and executive officers are not permitted to purchase financial instruments, including for greater certainty, prepaid variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the director or officer.

Clawback Policy

The Company’s Board has adopted a clawback policy that will apply to all incentive payments awarded on or after January 1, 2016, including bonus payments, stock options, and PSU awards. The clawback policy will apply to the CEO and CFO of the Company, and provides the Board discretion to recover any or all incentive compensation that would have otherwise not been paid if the Board determines that:

a) There has been a material misstatement in the Company’s financial statements resulting in the awarding of more PSUs and/or options, or the awarding of a larger bonus than would have otherwise occurred; and
b) The participant engaged in gross negligence or intentional misconduct, fraud or other misconduct or willful act engaged in by the applicable executive which resulted in the financial restatement by the Company.

The actual clawback of incentive awards, if any, will be at the sole discretion of the Board. The Board will have up to a one-year period following the date the incentive payment is settled to enforce the clawback policy, if necessary.

Appointment and Role of Compensation Consultants

Following concerns raised by shareholders and proxy advisors in 2015 regarding Africa Oil’s compensation practices, and the failure to receive shareholder approval of the Company’s Previous Stock Option Plan at the annual general meeting, the Compensation Committee engaged the services of Hugessen Consulting Inc. (“Hugessen”). As an independent advisor, Hugessen supports the Committee by providing independent insight.
Hugessen’s mandate involved an initial diagnostic review of Africa Oil’s pay and pay governance practices. The results of these findings lead to a redesign of Africa Oil’s compensation plans, including:

- Development of compensation peer groups (Canadian peers and UK reference peers)
- Benchmarking of pay levels for Executive Officers, and non-executive directors of Africa Oil, relative to compensation peers and development of a formal pay structure
- Design and implementation of incentive plans, including Long Term Incentive Plan
- Support with implementation of pay governance policies, including share ownership guidelines, say on pay, and clawback provisions

The Compensation Committee reviews information and advice provided by Hugessen, among other factors, in making its executive compensation decisions. The Committee also has the authority to hire and fire its independent advisor and reviews Hugessen’s performance regularly.

Compensation Consultant Fees

The table below summarizes all fees paid to Hugessen, our compensation consultant, in 2018. At no time prior to engaging Hugessen has any other compensation consultant or advisor been retained by Africa Oil.

APPENDIX B
SUMMARY OF EQUITY PLAN TERMS

Long Term Incentive Plan

The following summarizes the key terms of the LTIP as adopted by the Board. Capitalized terms used in the summary of the LTIP below that are not otherwise defined herein, shall have the meanings given to such terms in the LTIP.

Administration. The Board will administer the LTIP and has the right to delegate the administration and operation of the LTIP, in whole or in part, to a committee of the Board.

Awards Available for Grant. Pursuant to the LTIP, the Board may grant restricted share units ("RSUs") and performance share units ("PSUs") and any combination of the foregoing.

Eligible Participants. As designated by the Board, RSUs and PSUs may be granted to any officer, director or employee of the Company or a Consultant of the Company or any Affiliates and any such person's personal holding company.

Number of Shares. The maximum number of shares which may be reserved for issuance under the LTIP in respect of grants of RSUs and PSU to Eligible Participants, and for dividend-equivalent payments in respect thereof, cannot exceed 18,256,682 shares. As of December 31, 2018, there were 2,553,960 RSUs and 3,880,500 PSUs outstanding under the LTIP, representing, in aggregate, 35.2% of the maximum number of shares reserved for issuance. There are 11,822,222 shares available, being 64.8% of the maximum number of shares reserved for issuance under the LTIP.

Participation Limits. Unless the Company has received requisite shareholder approval, under no circumstances shall the LTIP, together with all other share compensation arrangements of the Company, result, at any time, in: (i) the aggregate number of shares reserved for issuance to insiders (as a group) at any point in time exceeding 10% of the Company's issued and outstanding shares; (ii) the issuance to insiders (as a group), within a one-year period, of an aggregate number of shares exceeding 10% of the Company's issued and outstanding shares; (iii) the aggregate number of shares reserved for issuance to all non-employee directors of the Company exceeding 1% of the Company's issued and outstanding shares; or (iv) the grant to any individual non-employee director of the Company of more than CAD$150,000 worth of shares annually.

Subject to compliance with the foregoing limitations, the LTIP does not provide for a maximum number of shares which may be issued to an individual pursuant to the LTIP.

Vesting. Each Grant Agreement will describe the vesting dates for RSUs and PSUs. The Company intends that for non-executive directors, RSUs will cliff vest three years after the date of grant and for all other participants, RSUs will have ratable vesting over three years. PSUs will cliff vest three years after the date of grant.

Term and Settlement. RSUs and PSUs will be settled on the first business day following the applicable vesting date but in all events in the calendar year in which such first business day occurs. RSUs and PSUs will be settled by the Company in shares issued from treasury, unless the Participant elects to settle in cash in which case the cash payment will be determined by the number of shares the Participant would be eligible to receive multiplied by the Market Value. The Company has the right to override the Participant's election and settle such RSUs or PSUs in shares issued from treasury.

Cessation. Unless otherwise provided in the applicable Grant Agreement, if a Participant ceases to be an Eligible Person due to his or her termination or resignation without good reason, any unvested Units held by that Participant shall expire. The expiration of a Unit renders it void and incapable of settlement.

If the Participant ceases to be an Eligible Person because of a resignation with good reason or his or her death, then any unvested Units held by that Participant will immediately vest and become available for settlement. If the Participant ceases to be an Eligible Person because of his or her retirement, such Participant will continue to participate in the LTIP as if the Participant continued to be actively employed with the Company. If the Participant ceases to be an Eligible Person because of a disability, all unvested Units held by such Participant will vest based on a pro-rated amount of months between the date of grant and the termination date and be settled in accordance with the LTIP. In respect of PSUs, the Board will calculate the actual performance criteria for the purposes of settlement.

Assignability. In no event may the Units under the LTIP be assigned or transferred in any way, except to the extent such Units may pass to a beneficiary or legal representative upon death of a participant.

Amendments. The Board may amend, revise or discontinue the terms and conditions of the LTIP in its sole discretion subject to certain limitations under the LTIP. The Board may, from time to time, in its discretion and without the approval of shareholders, make changes to the LTIP which do not require shareholder approval, which may include an amendment that: (i) is necessary to comply with any applicable law or any requirement of a stock exchange; (ii) is in respect of the administration of or eligibility for participation in the LTIP; (iii) is to alter, extend or accelerate the vesting or settlement terms of any Unit; or (iv) is of a "housekeeping nature", including those which are made to clarify the meaning of an existing provision of the LTIP, is to correct or supplement any provision of the LTIP that is inconsistent with any other provision of the LTIP, correct any grammatical or typographical errors or amend the definitions in the LTIP regarding administration of the LTIP.

The Board may not amend the LTIP without approval from the shareholders if any applicable law, or stock exchange rule, regulation or policy, requires that the amendment be approved by the shareholders. Shareholder approval of an amendment to the LTIP is specifically required where the amendment: (i) increases the maximum number of shares issuable under the LTIP; (ii) alters the participation limits for insiders or non-employee directors; (iii) extends the time for which a Unit expires beyond its original expiry date; (iv) permits the assignment or transfer of a unit other than for normal estate settlement purposes; or (v) amends the amendment provisions of the LTIP.

Market Value. Market Value means, in relation to a share, the volume weighted average trading price of the share on the Toronto Stock Exchange (the "TSX") for the five immediately preceding trading days.

Adjustments. The LTIP provides that appropriate adjustments, if any, will be made by the Board in connection with a reclassification, reorganization, or other change of shares, consolidation, distribution, merger or amalgamation, in order to maintain the participant's economic rights in respect of their units in connection with such change in capitalization.

Dividend Equivalents. If a dividend becomes payable by the Company on its shares, participants will be entitled to be credited with dividend equivalent payments in the form of additional RSUs and/or PSUs, as applicable, which additional units will be settled at the same time that the underlying RSUs and/or PSUs, as applicable, are settled.

Black-out period. A Participant that receives shares in satisfaction of a Unit during a black-out period may not sell or otherwise dispose of those shares during the black-out period. If a Participant chooses to receive cash on the settlement of Units and the settlement date falls during a black-out period, then the Cash Equivalent will be calculated with a Market Value on the date that is seven days following the date the relevant black-out period is lifted, terminated or removed.

Change of Control. In the event of a change of control transaction in which there is an acquiring or surviving entity, the Board may provide for substitute or replacement units of similar value from the acquiring or surviving entity or one or more of its subsidiaries. In addition, if a participant is terminated without cause or resigns with good reason, within twelve months following a change of control, unvested Units or replacement equivalents become fully vested. In addition, on a change of control, the Market Value of a share underlying a Unit will be determined on the date of the change of control and such Unit will convert into the entitlement to receive a cash payment in accordance with the terms of the LTIP.

Clawback. The Board has adopted a clawback policy that will apply to all incentive payments awarded on or after January 1, 2016, including bonus payments, stock options, and PSU awards. The clawback policy will apply to the CEO and CFO of the Company, and provides the Board discretion to recover any or all incentive compensation that would have otherwise not been paid if the Board determines that: (i) there has been a material misstatement in the Company's financial statements resulting in the awarding of more PSUs and/or options, or the awarding of a larger bonus than would have otherwise occurred; and (ii) the participant engaged in gross negligence or intentional misconduct, fraud or other misconduct or willful act engaged in by the applicable executive which resulted in the financial restatement by the Company. The actual clawback of incentive awards, if any, will be at the sole discretion of the Board. The Board will have up to a one-year period following the date the incentive payment is settled to enforce the clawback policy, if necessary.
